

Gli indumenti resistenti all'acqua offrono diversi livelli di protezione in base ai materiali utilizzati e alle tecniche di confezione.

RESISTENTE ALL'ACQUA

I materiali fluo aggiungono alta visibilità, le spalmature facilitano lo scivolamento delle gocce d'acqua, le cuciture termosaldate assicurano impermeabilità.

Water-resistant clothing offers different levels of protection based on the materials used and the manufacturing techniques.

WATER RESISTANT

The fluorescent materials add high visibility, the coatings make water drops slide more easily, the heat-taped seams ensure waterproofness.

MUST

River-Jacket [000352-0094]
